Getting to know the people who help make the University Club a success.

They are the people who help ensure that things run well at the University Club—Holly Milton, Rebecca Van Horn, and Manuel Sauri—and like all of us they have their own stories.

Holly Milton, office administrator and rental coordinator, was born in Guam and started at the Club in 1998, just a few weeks before Rebecca. She had been a preschool teacher at Wekiva Assembly, having gone to night school when the “children were young” (her son is now 30 and daughter 27) and got a teaching certificate so she could have the same hours. When she learned about the vacancy at the University Club, she applied. “Since I had worked in administration it seemed to be a good fit. Dick Sewell and Dick Artz, incoming and outgoing presidents, empowered me. Shortly after that, Rebecca joined the staff and it was the start of a beautiful friendship. “I like the people. I find their stories and backgrounds fascinating. The Club continues to evolve and has more than forty activity groups. It is never boring.”

Finance officer Rebecca Van Horn, born in Birmingham, Alabama, is also in charge of the data base, Yearbook, and this newsletter. She has seen a lot of changes since she started working at the club twenty years ago. The president of the Club is “like your boss.” One of our first presidents, after Dick Artz, was Elizabeth Brothers, who had been the first woman to join this previously all-male group in 1981. What makes the job so enjoyable is the members. It is like an extended family. I was 22 when I started here so I grew up working at the Club. I had my daughter while working here.” Rebecca’s husband, Michael, who works as an inspector for Orange County, played Santa Claus one year for the holiday dinner. Her current big quest is finding a college for her 17-year-old daughter, Emily, a star athlete at Oviedo High School.

Manuel Sauri, facilities operation manager, describes his job as doing “everything from sound, plumbing, electricity, to computers.” Manuel was born in Peru and immigrated to the United States in 1993. “It was a big opportunity. This country is the best.” He got his job at the Club fourteen years ago after answering a newspaper ad. “I like the people, they are very intelligent and good.” Manuel has two children—both UCF students—a son who has plans to be a mechanical engineer and a daughter studying hospitality management. “It is a fun job,” Manuel said. “I enjoy shows for free, improve my knowledge, and everyday learn something new.”

WINTER PARK HISTORY IN OUR LIBRARY

We have a good, albeit incomplete, collection of books on Winter Park history. In 975.9 you’ll find The Chase Papers (our founding family), Winter Park’s Old Alabama Hotel, The Hannibal Square Heritage Collection, From Miss Lamson’s Porch (our public library), A Sense of Place, Winter Park Portrait, Tales of Winter Park, and The Absolutely Essential Guide to Winter Park.

In Fiction we have the inappropriately titled Georgia Under Water by Heather Sellers, Remembering Blue by Connie May Fowler, and Clara and Mr. Tiffany by Susan Vreeland.

Memorable local figures may be found in our group biography section: Florida’s Promoters (920/HAR) and Remarkable Florida Women (920/WRI). In honor of Rita Bornstein’s retirement from the Rollins College presidency, the faculty compiled essays in a volume titled Fiat Lux: Teaching in Paradise (378.759/OSU).

Winter Park is nationally known as the home of Rollins College, the Morse Museum, the Cornell Fine Arts Museum, and the Polasek Museum. We have books about all of them: Rollins College (378/MOR), Tiffany Windows (748.5/DUN), Louis Comfort Tiffany’s Masterworks (748.09/BED), and Treasures of the Cornell Fine Arts Museum (708.44). Albin Polasek’s life story may be found with biographies: Albin Polasek: Man Carving His Own Destiny (92/POL).

For your convenience we have gathered all of them above the cart garage in the large Library room. Do check them out.

Although Conner’s personal papers were destroyed, author Steven Rabalais provides a detailed and fascinating account of Fox Conner using information from those who knew him: family members, friends, colleagues, critics, and enemies. *HISTORY– William the Conqueror: The Norman Conquest and the Yoke of England* is presented by Club member Gary Prager. All schoolchildren in the United Kingdom know the significance of the date 1066 in history and the Norman Conquest of England led by Duke William of Normandy. The defeat and subjugation of Saxon England and the following centuries enforced a belief that this “Norman Yoke” forcibly removed long-held rights that were never replaced. Instead of these rights, French tyranny was imposed on the peoples of England. This presentation will take you on a journey of discovery into what it meant to be a Norman in England, from the oppressed life of the serfs under the Feudal System in Norman England to the emergence of the new aristocracy in English society, creating in turn dynasties that in some cases still exist today. Gary Prager has presented classes at Rollins College Lifelong Institute of Learning on topics dealing with the life of Sir Winston Churchill, The House of Windsor, The English Civil War, and the House of Stuart. He also chairs a Politics and Current Events group that meets weekly at Rollins College. Co-Chairs: Sherry Levy and Ovid Vitas

**Thu. Jan. 17**

**BOOK REVIEW** - Join us for Member Jack Schott’s review of *Plain Honest Men* by Richard Beeman. In this compelling book on the making of the U.S. Constitution, author Beeman gives the reader a hands-on view of this great arena of conflict resolution, of what transpired when rancor became unbearable when Ben Franklin suggested adding prayer but our Founding Fathers defeated the idea in an attempt to keep separate religious practice and politics. We watch the debates between those in favor of states’ rights and those who place nationalism above the states, and the crucial and heartbreaking compromises over slavery made to keep the states intact. Clearly, allowing for this continual debate is the strength of our government. *Plain Honest Men* lets us know we are still living and thriving in the Founding Fathers’ world. Our issues of taxation, debt, immigration, foreign intervention, and states’ rights are no less complex now than what the framers of the constitution faced in 1787. Co-Chairs: Dot Cline and Linda Dunlap

7:00 p.m. **FILM NIGHT** – *Fargo*. In Fargo, the wildly inventive Coen brothers concoct a fiendishly clever kidnap caper that is simultaneously a comedy of errors, a Midwestern satire, a suspense thriller, and a tale of criminal misfortune. With Frances McDormand in an Oscar-winning role, *Fargo* embraces the local yokels with affectionate humor. Shocking and hilarious, *Fargo* is utterly unique and American, bearing the unmistakable stamp of its inspiring creators: the Coen brothers. Doors open at 6:30 p.m., movie starts at 7:00 p.m. Chair: Ovid Vitas

His life ended at age 95 in self-imposed exile from the United States. We will explore the life of this intellectual giant, his conflicts, and his impact on America. For the past five years, we have been privileged to have Mark Cooper as a guest speaker at our History Group. Co-Chairs: Sherry Levy and Ovid Vitas

- **10:00 a.m.** PHILOSOPHICAL DISCUSSION - Social Progress. We will review and discuss this lecture from Professor Steven Gimbel's Great Course DVD: “Redefining Reality: The Intellectual Implications of Modern Science.” Gimbel focuses on the philosophy of science, exploring the nature of scientific reasoning and the interaction of science and culture. Most people believe we are progressing as a society and are more likely to flourish with each new generation. Even those who disagree about whether we are inherently cooperative or competitive agree that society is on the right track. But anthropologist Joseph Tainter argues the other view. Great civilizations have always fallen, and ours most likely will too. Societies are good at solving problems, primarily by creating institutions. These institutions improve life but use resources in doing so. Given that there are also more problems, there are always more institutions, and society eventually becomes unable to support them all. Join us as we discuss professor Gimbel's insightful analysis of this topic. Chair: Richard Kronenfeld

WEEK OF JANUARY 28, 2019

Mon. Jan. 28
9:30 a.m.  DOCUMENTARY CINEMA - Bombshell: The Hedy Lamarr Story. Hedy Lamarr was a Hollywood movie star who was hailed as the most beautiful and glamorous woman in the world. However, that was only the surface that tragically obscured her astounding true talents. Foremost among them was her inventive genius that a world blinded by her beauty could not recognize as far back as her youth in Austria. This documentary film explores Lamarr’s life, especially her intellectual contributions to America (her new home) during World War II, including her staggering aptitude in creating brilliant engineering concepts that revolutionized telecommunications, as well as securing radio guidance system for Allied torpedoes during WWII. Economics became a science with the formulation of the ideal type of *homo economicus*, the financial being who is perfectly rational and completely self-interested. The behavior of such a being in the marketplace would be predictable, and the large-scale movements of the economy would be determinable from the properties of the individual. But in the 20th century, the classical picture was undermined, both in terms of the macro picture deriving from small-scale interactions and because humans are neither perfectly rational nor completely self-interested. Join us as we review and discuss Professor Gimbel's thought-provoking analysis of this topic. Chair: Richard Kronenfeld
